MEMORANDUM FOR: DDCI
D/DCI/IC

FROM: Director of Central Intelligence

SUBJECT: Draft Legislation

1. You will separately receive a copy of my Memorandum for the Record of the meeting between the Vice President, Senator Inouye and myself. As a result of this we urgently need to review the draft legislation which Senator Huddleston's Subcommittee has drawn up with regard to the charter of the CIA and the DCI and begin negotiations with that Subcommittee towards full agreement.

2. I suggest that Walt Elder disseminate the draft to the members of the NFIB for their comments, but that in the meantime we have a joint D/DCI/IC and DDCI effort to crash out a priority listing of necessary revisions. With this we should have a plan of action as to who should negotiate these suggested changes, first with the staff and secondly with the Senators.
